

Oak Mountain Academy Third Grade

Summer Reading

All students should read **7 X 9 = Trouble!** by Claudia Mills. It is available for purchase on Amazon for approximately \$7.99. Each student should bring his/her copy of **7 X 9 = Trouble!** on the first day of school for Back-to-School activities.

Parents can help their child develop a personal reading time each day during the summer. Students can be taught how to set a timer and read until the timer goes off. Please increase the time each day until your child is comfortable reading 20 minutes.

The Summer Reading Program has started for the local public libraries. This was always a favorite part of my summer as I participated at the Neva Lomason Memorial Library in Carrollton. There are other libraries that are part of the West Georgia Regional Library System. I believe they all have the same kickoff date. Students can pick out books that they enjoy and are on their level.

ARbookfinder.com is the website I use to determine Accelerated Reader points and the level of a book. You simply enter the title of the book, and you will receive the grade level of books and the number of AR points. Students could write down the titles of books they read along with the quiz number and be ready to take AR tests during the first days of school. This is not required.
